Subject Index: Volume 131

NOTE: An S after a page number denotes a supplement paper.

A

Abalone, myo-inositol synthesis by, 2896
Accidental injury, glutamine supplementation after (humans), 2543S
Acetic acid intake, and glycogen repletion in liver and skeletal muscle (rats), 1973
Acyl-CoA oxidase, hepatic, regulation by oxidized frying oil (rats), 3166
S-Adenosylhomocysteine, intracellular, DNA hypomethylation and (mice), 2811
Adipocytes, insulin signaling in, zinc and (mice), 1414
Adipose tissue
  epididymal, lipid metabolism in, dietary curcuminoids and (rats), 2932
  fatty acid composition of, as marker for dairy fat intake (humans), 828
  lipogenesis in, dietary conjugated linoleic acid and (humans), 2316
  tocotrienol concentration in, dietary sesame seeds and (rats), 2892
Adiposity, *see* Body fat
Adolescents (human)
  dietary supplement bioavailability in, 1351S
  serum vitamin and carotenoid concentrations in, effects of diet, race, and obesity on, 2184
  thymic function in, maternal undernutrition and, 1225
Aflatoxin, binding to DNA and proteins, carnitine and, in hepatocytes (rats), 1903
Africa, nutrition and old age in (humans), 2424S
African Americans, dietary patterns at beginning of 20th century (humans), 1881
Agaricus blazei Murill, antitumor and antiangiogenic actions of (mice), 1409
Age/aging, *see also* Older persons
  dietary (n-3) fish oil and, effects on autoimmunity and renal disease (mice), 2753
  dietary phosphorus and zinc and (mice), 3182
  energy expenditure and (humans), 1833
  energy restriction in
    bone density and (rats), 2382
    bone mass and reproduction and (monkeys), 820
    intestinal nutrient transport and (mice), 779
  intestinal immunity in, kefir milk and (rats), 807
  microarray profiling of gene expression in, calorie restriction and (mice), 918S
  nutrition and
    in developing countries (humans), *see* Developing countries, nutrition and aging in (humans)
    pancreatic extract-enriched diet and (rats), 813
    public education on (humans), 3074S
  renal arachidonic acid cascade and, vitamin E and (rats), 1297
  skeletal muscle in, uncoupling protein-3 and pleiotropic mRNA in, chronic docosahexaenoic acid intake and (mice), 2636
AHA, *see* American Heart Association
Albumin, monoolein binding by (cows), 774
Albumin fraction, of peas, bioavailability and postprandial utilization of (humans), 1706
Alcoholic beverages
  cardiovascular disease and (humans), 1401
  guidelines for (humans), 552S
Allergy, garlic and (mice), 1075S
Allicin
  in breath (humans), 968S
  processing of, 955S
Allium vegetables, garlic vs, 963S
Allyl sulfides, $p34^{cdc2}$ kinase and (humans), 1061S
S-Allylcysteine
  in brain ischemia (rats), 1100S
  in breath, determination of (humans), 968S
  learning deficits and (mice), 1093S
Aluminum, calbindin-D28k protein interaction with, in intestine (chick), 2007
American Heart Association, dietary guidelines of (humans), 132
Americans, *see also* African Americans
  dietary carbohydrate guidelines for (humans), 2766S
Amino acids, *see also* Branched-chain amino acids
  circulating and tissue, arginine deficiency and (mice), 2732
  deficiency of, cancer metastasis and (humans), 3047S
  mTOR regulation by, leucine in (rats), 861S
  in regulation of gene expression (lower eukaryotes and mammals), 2460S
  safety of (humans), 2556S
  in soybean meal, phytase and (chickens), 1792
  sulfur, dietary, body water distribution and (rats), 1302
  whole-body and splanchnic metabolism of, dietary casein and (rats), 1965
Aminoacyl-tRNA synthetases, translational accuracy of, atherosclerosis and (humans), 2963S
γ-Aminobutyric acid, cycling in brain, glutamine in (humans, rats), 2498S
Aminopeptidase A, serum level of, dietary fat saturation and (mice), 1177
Amylose cornstarch, heat and moisture treatment of (rats), 2716
Androgen, nutrition and, in prostate development and function (humans), 186S (abstract)
Anemia
  in children, multivitamin-multimineral and iron supplementation in, effect on appetite in Benin, 2874
  Helicobacter pylori in (humans), 2789S
  iron deficiency, *see* Iron deficiency anemia
  noninvasive diagnosis of, in mothers and young children (humans), 1610S
Angiogenesis
  ergosterol against (mice), 1409
  of tumor, dietary intervention in (humans), 190S (abstract)
Animal production systems, glutamine in (cows, pigs, rats, sheep), 2525S
Anorexia, of branched-chain amino acid deficiency (rats), 851S
Antibacterial activity, of garlic, 1106S
Antioxidant(s)
  biomarkers of, vegetables/fruits and (humans), 1706
  black tea and green tea catechins as (humans), 1731
  for bronchopulmonary dysplasia, in infant (humans), 947S
  in cancer prevention (humans), 3129S (abstract)
  in cocoa (humans), 834 (letter), 835 (letter)
  dietary supplements as, D-Roms test of oxidative stress and (humans), 3208
  garlic as
    (cows, mice), 1020S
    (humans), 972S, 985S, 1010S
  red and black rice as (rabbits), 1421
  tocotrienol as, in vitamin E protection against atherosclerosis (humans), 369S
Antioxidant status, polyunsaturated fatty acids and (rats), 39
Antitumor activity, of ergosterol (mice), 1409
Anxiety, lactogenesis and (humans), 3012S
Aortic smooth muscle cells, proliferation of
  isoflavone inhibition of (rats), 1154
  primrose oil and, in apolipoprotein E knockout (mice), 1675

0022-3166/01 $3.00 © 2001 American Society for Nutritional Sciences. J. Nutr. 131: 3337–3360, 2001.

Apolipoprotein B48, response to test meals, dry bean consumption and (humans), 1485
Apolipoprotein E deficiency
  aortic smooth muscle cell proliferation and atherosclerotic lesions in, primrose oil and (mice), 1675
  atherosclerotic lesions and, tocotrienol inhibition of (mice), 2606
  tea catechin prevention of atherosclerosis in (mice), 27
Apoptosis, of cervical cancer cells, indole-3-carbinol and diindolylmethane induction of (humans, mice), 3294
Appetite, carbohydrate intake and (humans), 2775S
Arabinose, lipogenic enzyme and triacylglycerol levels and (rats), 796
Arachidonic acid, dietary, behavioral development and (mice), 1568
Arachidonic acid cascade, renal, vitamin E and, in diabetes (rats), 1297
Arginine deficiency, biochemical implications of (mice), 2732
Aromatase activity, in breast cancer, mushroom phytochemical inhibition of (humans), 3288
Arsenic, dietary, DNA methylation and (rats), 1871 (letter), 1872 (reply)
Ascorbic acid synthesis
  in fetus, neonate, pregnancy, and postpartum period (pigs), 1997
  in lactation and weaning (pigs), 2002
Astrocyte trafficking, glutamine in (humans, rats), 2498S
Atherosclerosis
  garlic and
    (humans), 977S, 980S
    (rabbits), 977S, 980S
  hepatic cholesterol and lipoprotein metabolism and (guinea pigs), 10
  lipoprotein phenotype and, diet-gene interactions and (humans), 340S
  pathogen acceleration of (humans), 2798S
  pomegranate juice and (mice), 2082
  primrose oil and, in apolipoprotein E knockout (mice), 1675
  red and black rice and (rabbits), 1421
  tea catechin prevention of, in apoprotein E deficiency (mice), 27
  tocotrienol inhibition of (mice), 2606
  and translational accuracy of aminoacyl-tRNA synthetases (humans), 2963S
  vitamin E protection against (humans)
    dietary recommendations in, 395S
    macrophage cyclooxygenase regulation and age in, 382S
    mechanics of, 366S
    platelet aggregation inhibition in, 374S
    smooth muscle cell α-tocopherol nonantioxidant functions in, 378S
    α-tocopherol and monocyte proatherogenic activity in, 389S
    tocotrienol antioxidant and cell signaling in, 369S
ATP-binding cassette transporters, in sterol absorption (mice), 2603
Autoimmune liver disease, virally induced (humans), 2805S
Autoimmunity, dietary (n-3) fatty acids and (mice), 2753

B

B cell function, in obesity and body fat distribution (humans), 354S
Bacteria
  in industrial production of glutamine, 2552S
  protein synthesis in, tmPRN control of, 2978S
Banaba, lipogenesis-inhibitory and glucose uptake-stimulatory activity of (mice), 2242
Bangladesh
  euthyroid children in, iodine supplementation in, cognition and, 72
  hemoglobin concentration of women in (humans), 758
Bax, in fatty acid inhibition of invasive colon cancer (humans), 3041S
Bayley Scales, in children with iron deficiency anemia, 669S
Beans, dry, cholecystokinin and apolipoprotein B48 response and (humans), 1485
Behavior
  iron intake and (rats), 311
  in maze, and docosahexaenoic acid accumulation in brain (rats), 311
Behavioral development, fatty acid intake and (mice), 1568
Beninese children
  iodine status and thyroid function of, 2701
  stunted anemic, multivitamin-multimineral and iron supplementation in, appetite and, 2874
Beverages, guidelines for (humans)
  alcoholic, 552S
  on sugar content, 527S
Bile formation, glutamine and (rats), 2509S
Biliary cholesterol nucleation time, polyunsaturated fatty acids and, in obese women losing weight (humans), 2300
Bing, Franklin Church (1902–1988), biography, 713
Bioavailability, *see also* Dietary supplements (humans), bioavailability of
  measurement of (humans), 1344S
Biographies
  Franklin Church Bing (1902–1988), 713
  Karl August Folkers (1906–1997), 2227
  Jean Mayer (1920–1993), 1651
  Olaf Mickelsen (1912–1999), 205
  Helen T. Parsons (1886–1977), 6
  Virgil P. Sydenstricker (1889–1964), 2231
Biotin
  in liver, dietary regulation of (rats), 2310
  pharmacokinetics of (pigs), 1271
  quantification by streptavidin-binding assay (humans), 2208
  supplementary, immunological effects of (humans), 1479
Biotin deficiency, immune markers of (rats), 3231
Birds, infection-related obesity in, 2794S
Birth, vitamin A supplementation at, pneumococcal colonization and, in south Indian infants (humans), 255
Birth weight, iron deficiency anemia (humans) and, 590S
Black tea
  antioxidant activity of (humans), 1731
  catechin bioavailability from (humans), 1731
Bladder cancer, garlic and (mice), 1067S
Blood
  dried spot of, in vitamin A status assessment (humans), 1626S
  quiescent phenotype T cells in, in malnutrition (mice), 3266
Blood pressure
  dairy food consumption and (humans), 1875
  oat-containing hypocaloric diet and (humans), 1465
Blood specimens, collection and analysis of, filter paper for (humans), 1631S
Body composition
  breast-feeding and (humans), 78
  in HIV and tuberculosis, in Uganda (humans), 2843
  Kleiber's law in, at organ-tissue level (humans), 2967
  long term changes in, in older persons in developing countries (humans), 2433S
  in monitoring health and nutrition status of mothers and young children (humans), 1589S
  of older persons, HMB and (humans), 2049
  pre- and postnatal dietary conjugated linoleic acid and (rats), 2722
Body fat
  depletion of, calorie restriction and (humans, rats), 903S
  dietary conjugated linoleic acids and (rats), 1668
  dietary medium chain triacylglycerols and (humans), 2853
  and dietary protein in early life (rats), 2062
  distribution of, B cell function and (humans), 354S
  early nutrition and (humans), 874S
  glycemic index and (rats), 99
  pre- and postnatal dietary conjugated linoleic acid and (rats), 2722
  prediction in vivo by dual energy X-ray absorptiometry (mice), 2963
  reduction by dietary conjugated linoleic acid (humans, mice), 2067
Body mass index, economic disadvantages with food insecurity and (humans), 2880
Body water distribution, dietary sulfur amino acids and (rats), 1302
Bone density, energy restriction and, in aging (rats), 2382
Bone marrow transplantation, in cancer, glutamine and (humans), 2578S
Bone marrow-derived macrophages, casein peptide and (mice), 2936

Bone mass, energy restriction and, in aging (monkeys), 820
Bone turnover
  orlistat and, in obesity (humans), 1694
  soybean isoflavones and, after ovariectomy (rats), 723
Botanicals, in cancer patients (humans), 179S
Bowel function, glutamine and (humans, pigs), 2505S
Brain
  glutamate-GABA-glutamine cycling, NMR studies of (humans, rats), 2498S
  iron status in, iron regulatory proteins and (rats), 2831
  ischemia in, S-allylcysteine and (rats), 1100S
  leucine in (rats), 846S
  manganese transport to, transferrin in (rats), 1584 (letter), 1585 (reply)
  protein synthesis in, estrogen and (rats), 123
Bran, *see also* Rice bran
Branched-chain amino acid(s)
  deficiency of, in anorexia (rats), 851S
  leucine and, in excitatory neurotransmitter metabolism (rats), 846S
Branched-chain amino acid aminotransferase, skeletal muscle development and (sheep), 1528
Branched-chain keto acid dehydrogenase, in liver and skeletal muscle, in starvation (rats), 1682
Branched-chain keto acid dehydrogenase kinase, in liver, leucine and (rats), 841S
Brassica vegetables, phytochemicals from, in chemoprotection against cancer (humans), 3027S
Brazil
  breast-feeding in, body composition and (humans), 78
  children in
    nutritional counseling and weight gain in (humans), 2866
    weight for height and body proportions in, 1133, 1290
  obesity in, income and education and (humans), 881S
Bread, fortified, vitamin B-12 bioavailability from, in older persons (humans), 291
Breast cancer, *see also* Cancer
  aromatase activity in, mushroom phytochemical inhibition of (humans), 3288
  conjugated linoleic acid and (humans), 189S (abstract)
  COX-2 inhibition and (humans), 190S (abstract)
  CYP1 expression in, soy and whey proteins and (rats), 3281
  dietary fat and (humans), 186S (abstract)
  estrogen-dependent
    diet-gene interactions in (rats), 3087S
    genistein and (mice), 2957
  gap-junctional communication in (humans), 167S
  garlic derivatives and (humans), 1058S
  nutrition in prevention of (humans), 153S
  polyunsaturated fatty acids in (rats), 1125
  prevention of, clinical trials in (humans), 176S
  risk of, timing of dietary exposure and (humans), 154S
  soy intake and (humans), 3095S
  vitamin D and its receptors in (humans), 188S (abstract)
Breast cancer cells, carotenoid and retinoid treatment of (humans), 1574
Breast milk, effect of supplementary vitamin A and iron during pregnancy on, in Indonesia, 2664
Breastfeeding (humans), *see also* Lactation; Lactogenesis (human)
  body composition and, 78
  duration of
    growth and, in Mexican infants, 2304
    in unplanned pregnancy, in Ghana, 1247
  effects on maternal nutritional status and infant motor development, in Honduras, 262
  later obesity and, 874S
  resurgence of, 421S
  weaning from, in nonindustrial populations, 2707
  in 20th century, 409S
Breath, determination of allicin, S-allylcysteine and volatiles in (humans), 968S
Bronchopulmonary dysplasia, in infants and children
  antioxidant therapy in, 947S
  effect on growth and development (humans), 938S
  nutrition in prevention of and recovery from (humans), 942S
Buckwheat protein, colon carcinogenesis and (rats), 1850
Butyrate
  in fatty acid inhibition of invasive colon cancer (humans), 3041S
  liver energy metabolism and (rats), 1986

C

^{13}C breath tests, in monitoring health and nutrition status of mothers and young children (humans), 1637S
Caffeic acid, absorption of (humans), 66
Caffeine, energy metabolism and (humans), 2848
Calbindin-D28k protein, aluminum interaction with, in intestine (chick), 2007
Calcitrol, prostate cancer and (humans), 188S (abstract)
Calcium intake, by young girls, maternal milk consumption and (humans), 246
Calcium metabolism, in postpartum and never pregnant women (humans), 2295
Calcium signaling, polyunsaturated fatty acids and (rats), 2364
Calcium supplements, bioavailability of (humans), 1344S
  in pediatric and adolescent population, 1351S
  reproduction and, 1355S
Calcium transport, intestinal epithelial, saccharides and (rats), 3243
Calcium uptake, by intestinal tumor cells, casein phosphopeptides and (humans), 1655
Calorie restriction, 900S
  diet-dependent metabolic serotypes and (rats), 924S
  fat mass depletion and (humans, rats), 903S
  and insulin regulation of skeletal muscle glycogen synthase (monkeys), 907S
  and microarray profiling of gene expression in aging (mice), 918S
  in obesity, kidney disease and (rats), 913S
Calves, intestines of, colostrum intake and, 1256
Cancer, *see also site or type of cancer*
  botanicals and dietary supplements in (humans), 179S
  chemoprotection against by cruciferous plant phytochemicals (humans), 3027S
  chemotherapy for, garlic in alleviation of intestinal damage induced by (rats), 1071S
  diet and activity choices in (humans), 181S
  EPIC plans and progress in (humans), 170S
  garlic and
    (humans), 1027S, 1032S, 1058S, 1061S, 3127S (abstract)
    (mice), 1041S, 1046S, 1067S, 1075S
    (rabbits), 1054S
    (rats), 1049S, 1054S
  glutamine and
    (rats), 2539S
    in bone marrow transplantation and chemotherapy (humans), 2578S
  herbs against (humans), 3034S, 3128 (abstract)
  macrobiotic diet in (humans), 3056S
  Mediterranean diets and (humans), 3051S, 3065S
  metastasis of, tyrosine and phenylalanine restriction and (humans), 3047S
  mutations in, dietary protection against (transgenic mice), 3082S
  nutrition and, new trends in (humans), 3025S
  prevention of
    antioxidants in (humans), 3129S (abstract)
    diet in
      (humans), 3051S
      in p53 deficiency (mice), 3092S
    evidence-based dietary interventions in (humans), 3132S (abstract)
    flavonoids and nuclear receptor function in (mice), 3128S (abstract)
    future directions in (humans), 3121S, 3130 (abstract)
    natural products in (humans), 3127S (abstract)
    nutritional guidelines and public education on (humans), 3074S
    nutritional science in (humans), 3078S

state of the art dietary behavior recommendations for (humans), 3132S (abstract)
transcriptional regulation in (humans), 3128S (abstract)
retinoic acid-regulated genes in, DNA arrays of (humans), 3128S (abstract)
sedentary lifestyle and (humans), 181S
vitamin E tumor growth inhibitor in (humans), 161S
Carbohydrate intake
appetite and feeding behavior and (humans), 2775S
dietary guidelines for Americans (humans), 2766S
hypothalamic GLP-1 and (rats), 1819, 2164
insulin resistance and, 2782S
pros and cons of (humans), 2764S
triglyceride metabolism and (humans), 2772S
Carbon dioxide, quercetin metabolism to (humans), 2648
Carboxylases, mitochondrial, biotin regulation of (rats), 1909
Carcinogenesis, nutrition and (humans), 1865 (abstract), 1875 (abstract)
Cardiac protein synthesis, diarrhea and (rats), 1513
Cardiomyocytes, heat shock protein 72 in, in endotoxemia, guanylglutamine dipeptide and (sheep), 1433
Cardiovascular disease
alcohol/red wine and (humans), 1401
dietary fatty acids and (humans), 1322
dietary isoflavones and, after menopause (humans), 1202
garlic and
(humans), 977S, 980S, 989S, 994S, 1000S
(rabbits), 1006S
(rats), 989S, 994S
obesity and diabetes connection with (humans), 333S
atherogenic lipoprotein phenotype and diet-gene interactions in, 340S
genetic research and nutritional individuality in, 336S
insulin sensitivity and B-cell function in, 354S
mitochondria in, 344S
population variance and nutritional requirements in, 361S
Carnitine, effect on aflatoxin binding to DNA and proteins, in hepatocytes (rats), 1903
Carnosine, in skeletal muscle, carnosine ingestion and (rats), 287
Carotenoids
absorption of (humans), 3212
breast cancer cells treated with (humans), 1574
half-lives of (humans), 2096
prostate cancer cells and (humans), 3303
serum concentration of, in adolescents, effects of diet, race, and obesity on (humans), 2184
uptake by intestinal cells, lysophosphatidylcholine and (humans), 2921
Carrot consumption, by lactating women, vitamin A status and (humans), 1497
Casein
dietary
hepatic CYP1A enzyme inducibility and (rats), 1180
and whole-body and splanchnic metabolism of amino acids (rats), 1965
in gastric-inhibited food intake, opioid and cholecystokinin antagonists and (rats), 3270
Casein peptide, bone marrow-derived macrophages and (mice), 2936
Casein phosphopeptides, and calcium uptake by intestinal tumor cells (humans), 1655
Catabolic state, glutamine alimentation in (humans), 2569S
Catechin
bioavailability of, from black tea (humans), 1731
bioavailability of (rats), 2885
in green tea, antioxidant activity of (humans), 1731
metabolism in liver and small intestine (rats), 1753
in oolong tea, energy metabolism and (humans), 2848
CD28 receptor function, docosahexaenoic acid suppression of (humans, mice), 1147
Cecal fermentation, of wheat varieties (rats), 1770
Cell cycle control, genes linked to, intestinal selenium status and (mice), 3175
Cell cycle progression
iron deficiency and (mice), 2028
resveratrol arrest of, in colon cancer (humans), 2197
Cell growth, folate receptor function and (humans), 2819
Cell signaling
in liver, glutamine and (rats), 2509S
by tocotrienol, in vitamin E protection against atherosclerosis (humans), 369S
Ceramide metabolism, survival and (mice), 2826
Cervical cancer, invasive, blood folate and (humans), 2040
Cervical cancer cells, indole-3-carbinol and diindolylmethane-induced apoptosis of (humans, mice), 3294
Chemokines, intestinal expression of, iron status and (humans), 1452
Chemotherapy
glutamine and (humans), 2578S
intestinal damage induced by, alleviation by garlic (rats), 1071S
Chick(s)
hatchability of, and olive oil prevention of dietary conjugated linoleic acid adverse effects, 800
intestine of, calbindin-D28k protein interaction with aluminum in, 2007
Chickens
dietary protein and, hepatic malic enzyme mRNA and, 2269
infection-related obesity in, 2794S
small intestinal starch digestion rate in, 2329
in vitro starch digestion and, 2336
soybean meal protein utilization by, phytase and, 1792
Children (human), *see also* Infants (human)
Brazilian
nutritional counseling and weight gain in, 2866
weight for height and body proportions in, 1133, 1290
Chilean, growth deficits in (humans), 251
death of, iron deficiency anemia and, 636S
dietary and serum plant sterols in, 1942
dietary supplement bioavailability in, 1351S
euthyroid, iodine supplementation in, cognition and, 72
iron deficiency anemia in
cognitive development and, 649S
functional consequences of, 669S
monitoring health and nutrition status of
blood specimen collection and analysis in, filter paper for, 1631S
body composition methods in, 1589S
DNA microarray technology in, 1605S
innovative and non- or minimally invasive techniques in, 1643S
mass spectrometry in, 1615S
noninvasive anemia diagnosis in, 1610S
optical techniques in, 1596S
saliva as diagnostic specimen in, 1621S
vitamin A assessment in, 1626S
^{13}C breath tests in, 1637S
multivitamin-multimineral and iron supplementation in, appetite and, in Benin, 2874
nutrition advances in 20th century, 398S
mortality of, 401S
in United States, 431S
protein utilization in, exercise and, 2659
pulmonary insufficiency in, 933S
effect on growth and development, 938S
school-age, in Benin, iodine status and thyroid function of, 2701
Chile
nutrition and aging in (humans), 2433S
school children in, growth deficits in (humans), 251
China, nutrition and aging in (humans), 2433S
Chlamydia, vascular disease and (humans), 2798S
Chlorogenic acid, absorption of (humans), 66
Cholecystokinin, response to test meals, dry bean consumption and (humans), 1485
Cholecystokinin antagonists, and gastric inhibition of food intake by casein (rats), 3270
Cholera toxin, intestinal immunity to, kefir milk and (rats), 807

Cholesterol
cellular accumulation of, pomegranate juice and (mice), 2082
garlic lowering of (humans, rats), 989S, 994S
garlic oil action on, gender and (humans), 1471
hepatic metabolism of (guinea pigs), 10
lymphatic absorption of, phosphatidylcholine and (rats), 2358
Cholesterol esters, absorption of, molecular mechanisms in (mice), 2603
Cholesterol in diet
guidelines for (humans), 510S
sucrose-induced gallstones and (hamsters), 1803
Cholesterol nucleation time, biliary, polyunsaturated fatty acid intake and, in obese women losing weight (humans), 2300
Chronic diseases (human)
atherosclerosis as, pathogens and, 2798S
Helicobacter pylori in, 2789S
infection-related obesity as, 2794S
of infectious origin, 2787S
pathogen characteristics in, 2809S
viral-induced type 2 diabetes and autoimmune liver disease in, 2805S
Chylomicrons
contribution to milk vitamin A in lactation, vitamin A intake and (rats), 1279
and vitamin A intestinal digestion and absorption (humans), 1405
Cirrhosis, virally induced (humans), 2805S
Coagulation factors, soy protein intake and, in menopause (humans), 2280
Cockatiels, adaptation to high protein diet in, 2014
Cocoa, antioxidants in (humans), 834 (letter), 835 (letter)
Coconut oil, ingestion of, pancreatic secretion and (pigs), 3222
Cognition
in children, iron deficiency anemia and, 649S
iodine supplementation and (humans), 72
Colon adenoma, wheat aleurone flour and (rats), 127
Colon cancer
diet and genetic interaction in (mice), 3129S (abstract)
insulin and IGFs and (humans), 3109S
invasive, short-chain fatty acid inhibition of (humans), 3041S
resveratrol arrest of cell cycle in (humans), 2197
therapy and survival of, diet in (humans), 3131S (abstract)
tributyrin and dihydroxycholecalciferol effects on (humans), 1839
Colon carcinogenesis, buckwheat protein and (rats), 1850
Colon tumorigenesis, vitamin B-6 and (mice), 2204
Color of food, cancer prevention and (humans), 3078S
Colorectal cancer, garlic and (humans), 1032S
Colostrum intake, neonatal intestines and (calves), 1256
Community and international nutrition (humans), *see also* Developing countries, obesity in (humans)
breastfeeding in
body composition and, 78
duration of, growth and, in Mexican infants, 2304
effects on maternal nutritional status and infant motor development, in Honduras, 262
weaning from in nonindustrial populations, 2707

Intestinal microbiota, analysis of (mice), 1862
Intestinal mucosa, lipid peroxidation in, chronic dietary iron supplementation and (rats), 2928
Intestinal tumor cells, calcium uptake by, casein phosphopeptides and (humans), 1655
Intestine
calbindin-D28k protein interaction with aluminum in (chick), 2007
cytokine/chemokine expression in, iron status and (humans), 1452
flavonol and dihydroxychalcone metabolism in (rats), 2109
genistein and daidzein bioavailability in, fructooligosaccharides and (rats), 787
immunoglobulin absorption by, diet dependence of (neonatal pigs), 3259
lactoferrin stability in (rats), 2121
metallothionein immunolocalization in, zinc deficiency and repletion and (rats), 2132
of neonate, colostrum feeding and (calves), 1256
nutrient transport in, energy restriction and (mice), 779
selenium status in, and genes linked to DNA damage, cell cycle, and oxidative stress (mice), 3175
Iodine status, in Benin schoolchildren, 2701
Iodine supplementation, cognition and (humans), 72
Iron
absorption of, tapioca starch and (rats), 294
dietary, behavior and (rats), 311
Iron deficiency
cell cycle progression and (mice), 2028
mammary gland development during (rats), 1444
Iron deficiency anemia (humans), 564S
birth weight, gestation length, and perinatal mortality in, 590S
child mortality and, 636S
childhood cognitive development and, 649S
definition of, 565S
fetal growth and preterm birth in, 581S
functional consequences of, 669S
immunity and infectious disease and, 616S
iron biology in immunity, muscle metabolism, and neuronal functions, 568S
pregnancy-related maternal mortality and, 604S
work capacity and, 676S, 691S
Iron regulatory proteins, iron status and (rats), 2831
Iron status
cytokine expression and, in intestinal cells (humans), 1452
iron regulatory proteins and (rats), 2831
Iron supplements
and appetite of stunted anemic children, in Benin (humans), 2874
bioavailability of (humans), 1383S
in pediatric and adolescent population, 1351S
in Indonesian infants (humans), 2860
lipid peroxidation and, in intestinal mucosa (rats), 2928
in pregnancy (humans), 85
effect on breast milk, in Indonesia, 2664
Iron transport stimulator, in *Hfe* knockout mice, 1459
Ischemia, in brain, S-allylcysteine and (rats), 1100S
Ischemia-reperfusion injury, hepatic, food deprivation and oxidative stress effects on (rats), 105
Isoflavan equol, premenopausal urinary excretion of, wheat bran and soy protein feeding and (humans), 740
Isoflavone(s)
aortic smooth muscle cell proliferation inhibited by, in hypertension (rats), 1154
cardiovascular disease risk and, after menopause (humans), 1202
effects on bone turnover and osteopenia, after ovariectomy (rats), 723
intake study in Japan, validity and reproducibility of questionnaire for (humans), 2741
kinetics of, fructooligosaccharides and (rats), 787
pure and supplementary, bioavailability of (humans), 1362S
in soy proteins, intake by breast cancer survivors (humans), 3095S
Isoflavone degradation, effects of isoflavones, glycitein, daidzein, and genistein on (humans), 147

Isosafrole, hepatic CYP1A enzyme inducibility by, effect of dietary casein, soy protein, and whey on (rats), 1180
Isothiocyanates, in chemoprotection against cancer (humans), 3027S
Issues and opinions
AHA dietary guidelines (humans), 132
can lack of improvement in vitamin A status indicators be explained by little or no overall change in vitamin A status (humans), 3316
dietary fatty acids and cardiovascular health (humans), 1322
dietary protein in early life and development of adiposity (rats), 2062
efficacy of body fat lowering effect of conjugated linoleic acid (humans, mice), 2067
model for third-party review of evidence substantiating food and dietary supplement claims (humans), 2219
nutrition as reservoir for integrative science (humans), 1319
research needs for nutrition in the post-genome-sequencing era (humans), 3319

J

Japan, isoflavone intake in, validity and reproducibility of questionnaire on (humans), 2741

K

Kefir milk, intestinal immunity and, aging and (rats), 807
Kidney
arachidonic acid cascade in, vitamin E and, in diabetes (rats), 1297
glutamine metabolism in, mitochondrial glutaminase in (rats), 2491S
Kidney disease, in obesity, calorie restriction and (rats), 913S
Kleiber's law, at organ-tissue level (humans), 2967

L

Lactase synthesis, by neonates, oral IGF-I and (pigs), 2235
Lactation, *see also* Breastfeeding; Lactogenesis (human)
body composition and (humans), 78
calcium metabolism in (humans), 2295
dietary supplement bioavailability in (humans), 1355S
energy requirements during (humans), 53
liver gulonolactone oxidase and ascorbic acid in (pigs), 2002
mammary tissue vitamin A after (rats), 1544
milk vitamin A content in, contribution of chylomicrons vs retinol-binding protein to, vitamin A intake and (rats), 1279
vitamin A status in, papaya and carrot consumption and (humans), 1497
zinc intake and retinol homeostasis during (rats), 3237
Lactic acidosis, diarrhea and, in neonates (cows), 2128
Lactobacillus casei in protection against rotavirus diarrhea (rats), 111
Lactoferrin
bovine, gastric digestion of (humans), 2101
stability of, in gastrointestinal tract (rats), 2121
Lactogenesis (human)
in insulin-dependent diabetes mellitus and prematurity, 3016S
maternal and fetal stress and, 3012S
maternal perception of, validity and public health implications of, 3021S
obesity and, 3009S
physiology and endocrine changes underlying, 3005S
Lagerstroemia speciosa lipogenesis-inhibitory and glucose uptake-stimulatory activity of (mice), 2242
Lard, ingestion of, pancreatic secretion and (pigs), 3222
Latin America, obesity trends in (humans), 893S
Lauric acid, ingestion of fats rich in, serum lipids and (humans), 242
LDL, *see* Low density lipoprotein
Learning deficits, garlic for (mice), 1093S
Lecithin, transphosphatidylated phosphatidylserine, memory and (rats), 2951
Leucine
as nutritional signal, 839S
in amino acid regulation of mTOR (rats), 861S
in anorexia of branched-chain amino acid deficiency (rats), 846S
in excitatory neurotransmitter metabolism (rats), 846S
in regulation of hepatic branched-chain α-keto acid dehydrogenase kinase expression (rats), 841S
in regulation of protein synthesis in skeletal muscle (rats), 856S
in regulation of gene expression (lower eukaryotes and mammals), 2460S
ribosomal protein stimulation by, in liver (rats), 1171
Linoleic acid
dietary conjugated
adiposity and (rats), 1668
body fat lowering effect of (humans, mice), 2067
body fatty acid composition and (perch), 2322
breast cancer and (humans), 189S (abstract)
estimation of (humans), 1548
lipogenesis and (humans), 2316
and lymphocyte phenotype and effector functions (pigs), 2370
milk fat synthesis and (cows), 1764
olive oil and (chicks), 800
pre- and postnatal, adiposity and (rats), 2722
in protection against carcinogenic mutation (mice), 3082S
and low vegetable diet, platelet activation and (humans), 1700
Linolenic acid
dietary gamma
in diabetes (rats), 3160
effect on aortic smooth muscle cell proliferation and atherosclerotic lesions, in apolipoprotein E knockout (mice), 1675
T lymphocyte proliferation and (humans), 1918
Lipases, and vitamin A intestinal digestion and absorption (humans), 1405
Lipemia, dietary fat and (humans), 1491
Lipid(s)
metabolism of, in liver and epididymal adipose tissue, dietary curcuminoids and (rats), 2932
oat-containing hypocaloric diet and (humans), 1465
in plasma and liver, wheat varieties and (rats), 1770
plasma and liver levels of, effects of resistant starches on (rats), 1283
serum level of
dietary pecans and (humans), 2275
as marker for dairy fat intake (humans), 828
soy protein intake and, in menopause (humans), 2280
in tissue, effect of replacing dietary fish oil with rapeseed oil on (salmon), 1535
utilization of, energy efficiency of (pigs), 1309
Lipid peroxidation
chronic dietary iron supplementation and, in intestinal mucosa (rats), 2928
in diabetes mellitus type 1, vitamin E and (humans), 1723
garlic and (rats), 1016S, 1100S
pomegranate juice and (mice), 2082
Lipogenesis
dietary conjugated linoleic acid and (humans), 2316
Lagerstroemia speciosa inhibition of (mice), 2242
Lipogenic enzyme level, arabinose and (rats), 796
Lipopolysaccharide, retinoic acid synergism with, increased prostanoid concentrations from (rats), 2628
Lipoprotein(s), *see also* Low density lipoprotein
atherogenic phenotype of, diet-gene interactions and (humans), 340S
fatty acids in, polyunsaturated fatty acid-containing formula feeding and (pigs), 1250
hepatic metabolism of (guinea pigs), 10
metabolism of, palmitic and stearic acid effects on (monkeys), 2115
secondary structure of, dietary fats and, spectroscopy of (rats), 1898
serum level of, lauric acid-rich fat intake and (humans), 242
Lipoxygenases, prostate cancer and (humans), 189S (abstract)
Liver, *see also* Hepato
biotin in, dietary regulation of (rats), 2310

branched-chain keto acid dehydrogenase in, during starvation (rats), 1682
catechin metabolism in (rats), 1753
cell signaling in, glutamine and (rats), 2509S
cholesterol metabolism in (guinea pigs), 10
CYP1A enzyme inducibility in, effect of dietary casein, soy protein, and whey on (rats), 1180
energy metabolism in, butyrate and (rats), 1986
glycogen repletion in, acetic acid feeding and (rats), 1973
gulonolactone oxidase and ascorbic acid in, in lactation and weaning (pigs), 2002
ischemia-reperfusion injury in, food deprivation and oxidative stress effects on (rats), 105
leucine stimulation of ribosomal protein in (rats), 1171
lipids in
effects of resistant starches on (rats), 1283
metabolism of, dietary curcuminoids and (rats), 2932
wheat varieties and (rats), 1770
lipoprotein metabolism in (guinea pigs), 10
lycopene metabolism in, testosterone and food restriction effects on (rats), 1746
malic enzyme mRNA in, protein intake and (chickens), 2269
metallothionein immunolocalization in, zinc deficiency and repletion and (rats), 2132
oxidative stress in, folate depletion and plasma homocysteine level in (rats), 33
retinoic acid induction of GNMT in (rats), 1914
thioredoxin reductase in, selenium and (rats), 301
Liver cancer, CYP1 expression in, soy and whey proteins and (rats), 3281
Liver disease, autoimmune, virally induced (humans), 2805S
Liver injury, lipopolysaccharide-induced, green tea suppression of (rats), 1560
Low density lipoprotein, postmenopausal, ethanol-extracted soy protein and (hamsters), 211, 2971 (letter), 2972 (letter)
Low density lipoprotein oxidation
dietary monounsaturated fats and (humans), 1758
garlic suppression of (humans), 980S
in vitamin E protection against atherosclerosis (humans), 366S
walnut polyphenolic inhibition of (humans), 2837
Lung cancer, growth and metastasis of, resveratrol prevention of (mice), 1844
Lycopene metabolism, hepatic, testosterone and food restriction effects on (rats), 1746
Lymph node, quiescent phenotype T cells in, in malnutrition (mice), 3266
Lymphocytes, phenotype and effector functions of, dietary conjugated linoleic acid and (pigs), 2370
Lymphocyte-specific protein tyrosine kinase, zinc deficiency and (mice), 3189
Lysophosphatidylcholine
intestinal cell carotenoid uptake and (humans), 2921
vitamin E absorption and (rats), 717

M

Macrobiotic diet, in cancer (humans), 3056S
Macronutrient intake, GLP-1 and (rats), 1819, 2164
Macrophages
bone marrow-derived, casein peptide and (mice), 2936
cyclooxygenase regulation by, in vitamin E protection against atherosclerosis (humans), 382S
foam cell formation in, pomegranate juice and (mice), 2082
Magnesium deficiency, effects on retina and visual cortex (rats), 2378
Malic enzyme mRNA, hepatic, protein intake and (chickens), 2269
Malnutrition
in aging, pancreatic extract-enriched diet and (rats), 813
in pregnancy, effect on postnatal growth and adolescent thymic function (humans), 1225
Mammalian target of rapamycin (mTOR), amino acid regulation of, leucine in (rats), 861S
Mammary cancer, *see* Breast cancer
Mammary development
diet and, breast cancer risk and (humans), 154S
in iron deficiency (rats), 1444
lactogenesis and (humans), 3005S
Mammary epithelium and stroma, conjugated linoleic acids and, in breast cancer prevention (humans), 189S (abstract)

Mammary tumor, dietary fatty acids and, immune cell composition and (rats), 2021
Mammographic densities, diet and (humans), 189S (abstract)
Manganese, transport to brain, transferrin in (rats), 1584 (letter), 1585 (reply)
Mass spectrometry, in monitoring health and nutrition status of mothers and young children (humans), 1615S
Maternal mortality, pregnancy-related, iron deficiency anemia and, 604S
Maternal night blindness, infant mortality and, in Nepal (humans), 1510
Maternal nutritional status, breastfeeding and, in Honduras (humans), 262
Mayer, Jean (1920–1993), biography, 1651
Maze behavior, and docosahexaenoic acid accumulation in brain (rats), 319
Mediterranean diets, cancer and (humans), 3051S, 3065S
Medullary thick ascending limp, γ-linolenic acid effects on, in diabetes (rats), 3160
Meibomian gland, atrophy of, SCD1 gene mutation and (mice), 2260
Memory
impairment of, *S*-allylcysteine and (rats), 1100S
soybean lecithin transphosphatidylated phosphatidylserine and (rats), 2951
Menopause, *see also* Ovariectomy
cardiovascular disease risk after, dietary isoflavones and (humans), 1202
hypercholesterolemia after, ethanol-extracted soy protein in (hamsters), 211, 2971 (letter), 2972 (letter)
isoflavan equol urinary excretion before, wheat bran and soy protein feeding and (humans), 740
soy protein intake in, lipids, coagulation factors, and fibrinolytic factors and (humans), 2280
Metabolic rate, oolong tea and (humans), 2848
Metabolic serotypes, calorie restriction and (rats), 924S
Metabolic syndrome, polyunsaturated fatty acids and (mice), 1129
Metallothionein
in hepatoprotection (mice), 215
immunolocalization in intestine and liver, zinc deficiency and repletion and (rats), 2132
Metastasis, tyrosine and phenylalanine restriction and (humans), 3047S
Methionine
body water distribution and (rats), 1302
intake during pregnancy, fetal neural tube defect and (humans), 2653
3-Methylcholanthrene, hepatic CYP1A enzyme inducibility by, effect of dietary casein, soy protein, and whey on (rats), 1180
S-Methylcysteine, chemical carcinogenesis suppression by (rats), 1049S
Methylenetetrahydrofolate reductase, polymorphisms in, effect on diet responsiveness of plasma homocysteine (humans), 2643
Mexico, infant growth before and after 6 months of age in, breastfeeding duration and (humans), 2304
Mice, *see also* Rodents
aging
dietary phosphorus and zinc effects on, 3182
skeletal muscle of, uncoupling protein-3 and pleiotropic mRNA in, chronic docosahexaenoic acid intake and, 2636
apolipoprotein E deficiency in
aortic smooth muscle cell proliferation and atherosclerotic lesions in, primrose oil and, 1675
tea catechin prevention of atherosclerosis in, 27
arginine deficiency in, biochemical implications of, 2732
atherosclerosis in
pomegranate juice and, 2082
tocotrienol inhibition of, 2606

body fat of, prediction in vivo by dual energy X-ray absorptionmetry, 2963
bone marrow-derived macrophages from, casein peptide and, 2936
calorie-restricted, aging, microarray profiling of gene expression in, 918S
cancer in
  garlic and, 1041S, 1046S, 1067S
  prevention of
    dietary, 3082S
    flavonoids and nuclear receptor function in, 3128S (abstract)
    green tea, TCCD, and conjugated linoleic acid intake and, 1731
CD28 receptor function in, docosahexaenoic acid suppression of, 1147
ceramide metabolism in, survival and, 2826
cervical cancer cells in, indole-3-carbinol and diindolylmethane-induced apoptosis of, 3294
colon tumorigenesis in, vitamin B-6 and, 2204
dietary conjugated linoleic acid in, body fat lowering effect of, 2067
dietary (n-3) fatty acids in, effects on autoimmunity and renal disease, 2753
dietary ribonucleotides in, and T-helper cell responses against ovalbumin, 1165
energy deficit in, quiescent phenotype T cells and, 1812, 3266
energy-restricted, endotoxin response and, 2139
ergosterol antitumor and antiangiogenic actions in, 1409
estrogen receptor knockout, molecular and endocrine phenotypes of, 187S (abstract)
estrogen-dependent breast cancer in, genistein and, 2957
fatty acid intake in, behavioral development and (mice), 1568
garlic in
  antioxidants in, 1020S
  cancer and, 1067S
  chemical toxicity and carcinogenesis by, 1041S, 1046S
  immunomodulatory effects of, 1075S
  inhibition of nuclear factor-κB by, 1020S
  various preparations of, pharmacologic activities of, 1080S
gene transcription/metabolic syndrome in, polyunsaturated fatty acids and, 1129
glutamine transport in, molecular advances in, 2475S
hepatoprotection in, metallothionein and zinc in, 215
Hfe knockout, iron transport stimulator in, 1459
IL-2 deficient, inflammation and green tea polyphenol in, 2034
immune function in, genistein and, 3251
immunocompetence in, garlic and, 1067S, 1075S
insulin signaling in, zinc and, 1414
intestinal cancer in, diet and genetic interaction in, 3129S (abstract)
intestinal microbiota in, analysis of, 1862
intestinal nutrient transport in, energy restriction and, 779
intestinal selenium status in, and genes linked to DNA damage, cell cycle, and oxidative stress, 3175
intracellular S-adenosylhomocysteine in, DNA hypomethylation and, 2811
iron deficiency in, cell cycle progression and, 2028
Lagerstroemia speciosa lipogenesis-inhibitory and glucose uptake-stimulatory activity in, 2242
learning deficits in, garlic for, 1093S
lung cancer growth and metastasis in, resveratrol prevention of, 1844
malnutrition in, quiescent phenotype T cells in, 1812, 3266
obesity in
  genomic insights into diabetes with, 2078
  infection-related, 2794S
oxidative stress-induced renal injury in, curcumin and tetrahydrocurcumin effects on, 2090
p53-deficient, diet and cancer prevention in, 3092S
protein deficit in, quiescent phenotype T cells and, 3266
sebaceous and meibomian gland atrophy and eyelid wax esters in, SCD1 gene mutation and, 2260
serum aminopeptidase A in, dietary fat saturation and, 1177
sterol absorption in, molecular mechanisms of, 2603
transgenic, cancer in, dietary protection against mutation in, 3082S
vitamin D and reproduction in, 1787
zinc deficiency in, lymphocyte-specific protein tyrosine kinase and (mice), 3189
Mickelsen, Olaf (1912–1999), 205
Microarray profiling of gene expression, in aging, calorie restriction and (mice), 918S

Rice bran tocotrienols, hereditary hypercholesterolemia and (pigs), 223
RNA, ribosomal, genetic analysis of (*Escherichia coli*), 2994S
Rodents, *see also* Mice; Rats
prostate development and function in, estrogen exposure and, 187S (abstract)
D-Roms test of oxidative stress, to measure food supplement bioavailability and antioxidant activity in (humans), 3208
Rotavirus diarrhea, *L. casei* protection against (rats), 111

S

Saccharides, intestinal epithelial calcium transport and (rats), 3243
S-adenosylhomocysteine, intracellular, DNA hypomethylation and (mice), 2811
Saliva, as diagnostic specimen, in monitoring health and nutrition status of mothers and young children (humans), 1621S
Salmon, dietary fish oil replaced by rapeseed oil in, effects on tissue lipid composition and hepatocyte fatty acids, 1535
Salt restriction, guidelines for (humans), 536S
Saponins, in garlic, cardiovascular disease and, 1000S
Sarcopenia, in Chinese elderly (humans), 2433S
SCD1, *see* Stearoyl-CoA desaturase
SCL23A2 gene, structure of (humans), 2623
Sebaceous gland, atrophy of, SCD1 gene mutation and (mice), 2260
Sedentary lifestyle, cancer and (humans), 181S
Selenium
  deficiency of, vitamin E deficiency with, fatal myopathy from (guinea pigs), 1798
  dietary, DNA methylation and (rats), 1871 (letter), 1872 (reply)
  liver thioredoxin reductase and (rats), 301
  from *Spirulina*, bioavailability of (rats), 2343
Selenium status
  intestinal, and genes linked to DNA damage, cell cycle, and oxidative stress (mice), 3175
  in older New Zealand women (humans), 2677
Selenium supplements, bioavailability of (humans), reproduction and, 1355S
Sepsis, glutamine metabolism and (rats), 2553S
Sesame oil, serum γ-tocopherol and (humans), 1195
Sesame seeds, dietary, and tocotrienol concentration in skin and adipose tissue (rats), 2892
Sex hormones, effects on body weight and food intake (rats), 2351
Sheep
  endotoxemia in, hemodynamics and guanyl-glutamine dipeptide in, 1433
  oligopeptide uptake in, gastrointestinal peptide transporter oPepT1 and, 1264
  science and production of, glutamine in, 2525S
  skeletal muscle development in, branched-chain amino acid aminotransferase and, 1528
Sickle cell anemia, garlic for (humans), 1085S
Sitosterolemia, molecular mechanisms in (mice), 2603
Skeletal abnormalities, zinc deficiency and, in growing rats, 1142
Skeletal muscle
  aging, uncoupling protein-3 and pleiotropic mRNA in, chronic docosahexaenoic acid intake and (mice), 2636
  branched-chain keto acid dehydrogenase in, during starvation (rats), 1682
  carnosine and histidine in, dietary carnosine and (rats), 287
  development of, branched-chain amino acid aminotransferase and (sheep), 1528
  glycogen repletion in, acetic acid feeding and (rats), 1973
  insulin-regulated glycogen synthase in, calorie restriction and (monkeys), 907S
  protein synthesis in, leucine regulation of (rats), 856S
Skin, tocotrienol concentration in, dietary sesame seeds and (rats), 2892
Small intestine
  barrier function of, at weaning (pigs), 1520
  catechin metabolism in (rats), 1753
  galactoprotein maturation in, dietary polyamines and (rats), 1890
  starch digestion rate in (chickens), 2329
    in vitro starch digestion and, 2336
Smokers
  antioxidant biomarkers in, vegetables/fruits and (humans), 1706
  dietary patterns of (humans), 1952
Smooth muscle cells
  aortic, proliferation of, isoflavone inhibition of (rats), 1154
  α-tocopherol nonantioxidant functions in, in vitamin E protection against atherosclerosis (humans), 378S
Soft drinks, dietary guidelines for (humans), 2766S
Soy protein
  CYP1 expression and, in liver and mammary cancer (rats), 3281
  dietary, hepatic CYP1A enzyme inducibility and (rats), 1180
  effect on premenopausal urinary excretion of isoflavan equol (humans), 740
  ethanol-extracted, hypercholesterolemia and (hamsters), 211, 2971 (letter), 2972 (letter)
  intake by breast cancer survivors (humans), 3095S
  intake by perimenopausal women, lipids, coagulation factors, and fibrinolytic factors and (humans), 2280
Soybean isoflavones
  bioavailability of (humans), 1362S
  effects on bone turnover and osteopenia, after ovariectomy (rats), 723
Soybean lecithin, transphosphatidylated phosphatidylserine from, memory and (rats), 2951
Soybean meal protein, utilization of, phytase and (chickens), 1792
Space flight, nutritional status in (humans), 2053
Spectroscopy, of lipoprotein secondary structure, fat ingestion and (rats), 1898
Spermidine, dietary, intestinal galactoprotein maturation and (rats), 1890
Spermine, dietary, intestinal galactoprotein maturation and (rats), 1890
Sphingolipids, serum, correlates of (human), 2748
Sphingosine 1-phosphate, ceramide conversion to, survival and (mice), 2826
Spirulina selenium from, bioavailability of (rats), 2343
Spleen, quiescent phenotype T cells in, in malnutrition (mice), 3266
Squalene monooxygenase, garlic inhibition of (humans), 1662
Starch
  digestion and fermentation of (dogs), 276
  digestion in small intestine, rate of (chickens), 2329
    in vitro starch digestion and, 2336
  effects on plasma and liver lipids and mineral retention (rats), 1283
  from tapioca, zinc and iron absorption and (rats), 294
  utilization of, energy efficiency of (pigs), 1309
Starvation, branched-chain keto acid dehydrogenase in liver and skeletal muscle during (rats), 1682
Stearic acid, lipoprotein metabolism and (monkeys), 2115
Stearoyl-CoA desaturase, genetic disruption of, sebaceous and meibomian gland atrophy and eyelid wax esters depletion in (mice), 2260
Sterols
  absorption of, molecular mechanisms of (mice), 2603
  plant, dietary and serum, in children (humans), 1942
Stomach cancer, garlic and (humans), 1032S
Storage temperature, erythrocyte vitamin B-6 aminotransferase activity and (humans), 1581
Streptavidin-binding assay, biotin quantitation by (humans), 2208
STRIP study, of dietary and serum plant sterols in children (humans), 1942
Stroke, dairy food consumption and (humans), 1875
Stromal vascular cells, lipogenesis in, dietary conjugated linoleic acid and (humans), 2316
Stunted children, in Benin, multivitamin-multimineral and iron supplementation in, appetite and (humans), 2874
Sucrose-induced gallstones, dietary cholesterol and (hamsters), 1803
Sugar
  in beverages and food, guidelines for (humans), 527S
  dietary guidelines for (humans), 2766S
Sulforaphane, in chemoprotection against cancer (humans), 3027S
Sulfur amino acids, dietary, body water distribution and (rats), 1302
Supplements, *see* Dietary supplements (humans)
Surgery, recovery from, glutamine and (humans), 2515S, 2543S
Surveys of health and nutrition, *see* Guidelines for diets
Swine, *see* Pigs
Sydenstricker, Virgil P. (1889–1964), biography, 2231

T

T cells
  calcium signaling in, polyunsaturated fatty acids and (rats), 2364
  proliferation of, fatty acids and (humans), 1918

quiescent phenotype
energy deficiency and (mice), 1812, 3266
protein deficiency and (mice), 3266
Tamoxifen, effects on body weight and food intake (rats), 2351
Tapioca starch, zinc and iron absorption and (rats), 294
Target of rapamycin
mammalian, amino acid regulation of, leucine in (rats), 861S
translational regulation by (*Drosophila melanogaster*), 2988S
TCDD, dietary, in protection against carcinogenic mutation (mice), 3082S
Tea
black
antioxidant activity of (humans), 2248
catechin bioavailability from (humans), 1731
gallic acid from, pharmacokinetics and bioavailability of (humans), 1207
green
antioxidant activity of (humans), 2248
atherosclerosis prevention by, in apoprotein E deficiency (mice), 27
polyphenol extract from, and inflammation in IL-2 deficiency (mice), 2034
in protection against carcinogenic mutation (mice), 3082S
in suppression of lipopolysaccharide-induced liver injury (rats), 1560
oolong, energy metabolism and (humans), 2848
Testes, NF-κB binding activity in, zinc deficiency and (rats), 21
Testicular testosterone, garlic supplementation and, in high protein diet (rats), 2150
Testosterone, food restriction with, hepatic lycopene metabolism and (rats), 1746
Tetrahydrocurcumin, oxidative stress-induced renal injury and (mice), 2090
T-helper cells, responses against ovalbumin, dietary ribonucleotides and (mice), 1165
Thioredoxin reductase, in liver, selenium and (rats), 301
Thrombosis, platelet-mediated, onion inhibition of (dogs), 2619
Thymic function, in adolescent, maternal undernutrition and (humans), 1225
Thyroid function, in Benin schoolchildren, 2701
Thyroid hormone, zinc status and, growth and (rats), 1135
Tissue inhibitor of matrix metalloproteinases, in fatty acid inhibition of invasive colon cancer (humans), 3041S
α-Tocopherol
absorption of, phospholipids and (rats), 717
serum concentration of, in adolescents, effects of diet, race, and obesity on (humans), 2184
in vitamin E protection against atherosclerosis (humans)
monocyte proatherogenic activity and, 389S
nonantioxidant functions in smooth muscle cells, 378S
γ-Tocopherol, in serum, corn and sesame oils and (humans), 1195
Tocotrienol
antioxidant and cell signaling actions of, in vitamin E protection against atherosclerosis (humans), 369S
atherosclerotic lesion inhibition by (mice), 2606
from rice bran, hereditary hypercholesterolemia and (pigs), 223
in skin and adipose tissue, dietary sesame seeds and (rats), 2892
Tomato paste intake, in protection against UV light-induced erythema (humans), 1449
Touchi extract, antiglycemic effect of
(humans, rats), 1211
in type 2 diabetes (humans), 2105
Toxicity, *see* Nutrient interactions and toxicity
Transferrin, in manganese transport to brain (rats), 1584 (letter), 1585 (reply)
Transglutaminase, cancer and (rats), 2539S
Translational control
of aminoacyl-tRNA synthetases, atherosclerosis and (humans), 2963S
control of protein synthesis by tmRNP (bacteria), 2978S
genetic analysis of ribosomal RNA in (*Escherichia coli*), 2994S
mechanistic perspective of, 2976S
by target of rapamycin signaling (*Drosophila melanogaster*), 2988S
Transphosphatidylated phosphatidylserine, from soybean lecithin, memory and (rats), 2951
Triacylglycerols
dietary medium chain, reduction of body weight and fat by (humans), 2853
hepatic secretion of, insulin resistance and (rats), 2074
level of, arabinose and (rats), 796
postprandial
fat and fat replacer ingestion and (humans), 1491
from monounsaturated oleic oils (humans), 59
serum, diacylglycerol ingestion and, in diabetics (humans), 3204
Tributyrin, dihydroxycholecalciferol enhancement by, against colon cancer cells (humans), 1839
Tricarboxylic acid cycle intermediates, metabolism of, glutamine availability and (humans, rats), 2488S
Triglycerides
metabolism of, carbohydrate intake and (humans), 2772S
structured, fat-soluble vitamin absorption and (rats), 2157
Tuberculosis, body composition in, in Uganda (humans), 2843
Tumor angiogenesis, dietary intervention in (humans), 190S (abstract)
Tunisia, diet culture in, obesity and (humans), 887S
Tyrosine, deficiency of, cancer metastasis and (humans), 3047S
Tyrosol, in vivo fate of (rats), 1993

U

Uganda, HIV and tuberculosis in, body composition in (humans), 2843
Ulcers, *Helicobacter pylori* in (humans), 2789S
Ultraviolet light, erythema induced by, dietary tomato paste in protection against (humans), 1449
Uncoupling protein-3, chronic docosahexaenoic acid intake and (mice), 2636
Underweight women, in India, nutrition transition and (humans), 2692
United States
elderly food assistance programs in, 765
elderly food insecurity in, 1503
Urine nitrogen output, modeling of (cows), 3307
Urokinase plasminogen activator, in fatty acid inhibition of invasive colon cancer (humans), 3041S

V

Vascular disease, pathogen acceleration of (humans), 2798S
Vegetable ingestion
antioxidant biomarkers and (humans), 1706
in cancer prevention (humans), 3078S
fatty acids and, platelet activation and (humans), 1700
guidelines for (humans), 487S
by smokers and nonsmokers (humans), 1952
Vegetarianism
in cancer (humans), 3056S
folate status and, in pregnancy (humans), 733, 1586; erratum
Vertebrates, *see also specific animals*
embryonic development of, vitamin A and, 705
Violaxanthin, absorption of (humans), 3212
Visual cortex, magnesium deficiency and (rats), 2378
Vitamin(s)
deficiency of, diagnostic mass spectrometry of (humans), 1615S
fat-soluble, malabsorption of, structured triglycerides and (rats), 2157
from fortified food (humans), 2177
serum concentrations of, in adolescents, effects of diet, race, and obesity on (humans), 2184
supplementary, and appetite of stunted anemic children, in Benin (humans), 2874
Vitamin A
deficiency of, IGF system and (quail), 1189
discovering visual function of (frogs), 1647

intake of
affect on chylomicrons vs retinol-binding protein contribution to milk vitamin A in lactation (rats), 1279
plasma retinoic acid metabolites after (humans), 3197
intestinal digestion and absorption of (humans), 1405
requirement for (rhesus monkeys), 2904
supplementary
at birth, pneumococcal colonization and, in south Indian infants (humans), 255
in pregnancy (humans), 85
effect on breast milk, in Indonesia, 2664
in vertebrate embryonic development (quail), 705
Vitamin A status
assessment of (humans), 1626S
indicators of, lack of improvement in (humans), 3316
in lactating women, papaya and carrot consumption and (humans), 1497
in mammary tissue after lactation (rats), 1544
Vitamin B-12, bioavailability from dietary milk and bread, in older persons (humans), 291
Vitamin B-6
colon tumorigenesis and (mice), 2204
recommended dietary allowance of (humans), 1777, 2224; erratum
Vitamin B-6 aminotransferase, in erythrocytes, storage temperature and (humans), 1581
Vitamin C, vitamin K-3 combinations with, anti-prostate cancer effects of (humans), 158S
Vitamin C transporter, genomic structure of (humans), 2623
Vitamin D
breast cancer and (humans), 188S (abstract)
reproduction and (mice), 1787
toxicity of, ibandronate as antidote for (rats), 2910
Vitamin D receptor, breast cancer and (humans), 188S (abstract)
Vitamin D receptor agonists, prostate cancer and (humans), 188S (abstract)
Vitamin E
absorption of, phospholipids and (rats), 717
effects on microsomal phospholipase A_2 and renal arachidonic acid cascade in diabetes (rats), 1297
and erythrocytes in type 1 diabetes mellitus (humans), 1723
in protection against atherosclerosis (humans)
dietary recommendations in, 395S
macrophage cyclooxygenase regulation and age in, 382S
mechanics of, 366S
platelet aggregation inhibition in, 374S
smooth muscle cell α-tocopherol nonantioxidant functions in, 378S
α-tocopherol and monocyte proatherogenic activity in, 389S
tocotrienol antioxidant and cell signaling in, 366S
as tumor cell growth inhibitor (humans), 161S
Vitamin E deficiency, selenium deficiency with, fatal myopathy from (guinea pigs), 1798
Vitamin K-3, vitamin C combinations with, anti-prostate cancer effects of (humans), 158S

W

Walnut polyphenolics, LDL oxidation and (humans), 2837
Wasting (thinness), in Brazilian children, 1133, 1290
Wax esters, in eyelids, SCD1 gene mutation and (mice), 2260
Weaning
intestinal barrier function at (pigs), 1520
liver gulonolactone oxidase and ascorbic acid in (pigs), 2002
Weight, guidelines for (humans), 440S
Weight gain
in infant, food supplementation and (humans), 1879, 1946
nutritional counseling and, in Brazilian children (humans), 2866
pre- and postnatal dietary conjugated linoleic acid and (rats), 2722
sex hormones and tamoxifen effects on (rats), 2351
Weight loss, *see also* Calorie restriction
dietary medium chain triacylglycerols and (humans), 2853
oat-containing hypocaloric diet and (humans), 1465
polyunsaturated fatty acid intake in, biliary cholesterol nucleation time and (humans), 2300
Weightlessness, nutritional status in (humans), 2053
Western diet, folate status and, in pregnancy (humans), 733, 1586; erratum
Wheat, varieties of, effect on cecal fermentation and plasma/hepatic lipids (rats), 1770
Wheat aleurone flour, colon adenoma and (rats), 127
Wheat bran, effect on premenopausal urinary excretion of isoflavan equol (humans), 740
Whey, dietary, hepatic CYP1A enzyme inducibility and (rats), 1180
Whey protein, CYP1 expression and, in liver and mammary cancer (rats), 3281
Wine, red
cardiovascular disease and (humans), 1401
flavonols from, bioavailability of (humans), 745
Women, in India, nutrition transition and (humans), 2692
Work capacity, Iron deficiency anemia and (humans), 676S, 691S
Written assessment of nutrition, dietary conjugated linoleic acid intake on (humans), 1548

X

Xanthophyll epoxides, absorption of (humans), 3212
Xenopus oocytes, sheep gastrointestinal peptide transporter oPepT1 in, oligopeptide uptake and (sheep), 1264
Xeoxanthin, prostate cancer cells and (humans), 3303

Z

Zimbabwe, lactating women in, vitamin A status of, papaya and carrot consumption and (humans), 1497
Zinc
absorption of
accurate estimation of (humans), 1854
tapioca starch and (rats), 294
dietary
aging and (mice), 3182
in hepatoprotection (mice), 215
regulation of zinc transporters by (rats), 46
zinc kinetics and (humans), 2288
insulin signaling and (mice), 1414
retinol homeostasis and, during lactation (rats), 3237
Zinc deficiency
lymphocyte-specific protein tyrosine kinase and (mice), 3189
NF-κB binding activity and, in testes (rats), 21
skeletal abnormalities, growth and (rats), 1142
Zinc deficiency and repletion, metallothionein immunolocalization and, in intestine and liver (rats), 2132
Zinc status
in older New Zealand women (humans), 2677
thyroid hormone and, growth and (rats), 1135
Zinc supplements
bioavailability of
in pediatric and adolescent population, 1351S
reproduction and (humans), 1355S
in Indonesian infants (humans), 2860
